MAESTRO

**BOOK DEMO**

That giant whiteboard hanging in the Closing Department we all know and love...just got a makeover!

Maestro provides a web-based, dynamic and integrated Calendar Solution, which provides real-time file status, alerts, tracking and BI, from anywhere in the world you have an internet connection. CD and Funding Status, Color Coding, and Admin Controls such as; Same-day Cut-off Requests, Max File Load, Multiple Queues, and much more.

Get access to simple, but powerful, charts and business intelligence for your team. Real-time visibility and pipeline updates, right from a cell phone or tablet, without having to stroll down to the closing department, log in to the LOS, or pull a report.
